Numb. 502.

THE Pennſylvania GAZETTE.

Containing the freſheſt Advices Foreign and Domeſtick.

FROM JULY 20. TO JULY 27. 1738.

LONDON April 18.

YESTERDAY Admiral Nicholas Haddock, Member of Parliament for Rocheſter, kiſs'd the King's Hand at St. James's, on his being appointed Admiral of the intended Squadron, which is ſpeedily to be ſent to the Mediterranean.

At the ſame time, above 100 Warrants for impreſſing Seamen for his Majeſty's Service were delivered out.

Admiral Haddock will in a few Days hoiſt his Flag on board his Majeſty's Ship the Somerſet, and Capt. Barnell will be appointed Commander thereof.

April 19. Monday laſt was held a Board of Admiralty, when their Honours granted a Number of Protections for Mariners belonging to Coaſters, at the Requeſt of their Commanders. And

Yeſterday was held a Board of Admiralty, when the following Ships were put into Commiſſion, viz. The Princeſs Amelia 80 Guns, Prince of Orange 70, Elizabeth 70, Kent 70, Worceſter 60, Princeſs Auguſta 60, Sunderland 60, Deptford 60, Princeſs Louiſa 60, Weymouth 60, Oxford 50, Aſſiſtance 50, Newcaſtle 50, and the Salisbury 50.

Admiral Haddock ſail'd yeſterday from the Nore for the Downs, on board the Dragon, and the other Ships are to follow him as ſoon as poſſible.

A few Days ſince a Woman who lives at the valiant Trooper in College Row, near Chelſea College, was marrito one Fox, a Penſioner of that College: She buried a Huſband about a Fortnight before this Marriage, and another about 9 Days before that; ſo that the preſent is the third living Husband ſhe has had in one Month's Time.

The Preſs for Seamen ſtill continues ſo hot, that many play at hide-and-ſeek, who had engag'd themſelves in different Employments, particularly among the Brick-Makers, by which, and the great Demand for Bricks for the intended Manſion-Houſe, the Price of that Commodity is riſen above 40 per Cent. it having been affirm'd in Common Council, by a Gentleman of undoubted Veracity, that there are not Bricks enough now made, within twenty Miles of London, ſufficient to finiſh the Foundation only.

They write from Vienna, that that Court is far from being diſpleas'd at the Reſolution of the Britiſh Nation to be aveng'd of the Spaniards, hoping at leaſt that this will prevent the Queen of Spain from executing the Projects which ſhe is ſaid to have form'd againſt Italy.

Letters form Conſtantinople, by way of Petersburgh, bring, that the Turks ſeem altogether diſpos'd to risk another Campaign; and it's reported that they are already in march towards Oczakow, in order to form the Siege of that Place before the Arrival of the Ruſſian Amry in thoſe Parts. If this ſhould prove true, one may expect to hear of a bloody Battle at the beginning of the Campain. The laſt Advices from Perſia ſay, that Thamas Kouli Kan perſiſted in refuſing to ratify the Treaty that his Ambaſſador ſome time ago concluded with the Miniſters of the Porte; but that, however, he was not in a Condition of undertaking any thing againſt the Turks, by reaſon of the Troubles which continue to diſturb his new Kingdom. Letters from General Munich bring, that the Army had actually begun its March towards Perewolowna, where is to be its general Rendezvous, and that it would be finer and more numerous this Year than the laſt. They write from Oczakow, that a Capital Mine had been diſcover'd there, which the Turks had dug, wherein were found 180 Barrels of Powder.

Extract from the Votes of the Houſe of Commons of Great-Britain, April 19. 1738.

The Houſe, according to Order, proceeded to take into Conſideration the Report from the Committee of the whole Houſe, to whom it was referred, to conſider of the Report from the Committee, to whom the Petition of the Ironmongers and Manufacturers of Iron in the Towns of Birmingham, Wolverhampton, Stourbridge, and Dudley, and the Parts adjacent, in the Counties of Warwick, Stafford and Worceſter; and alſo, the Petition of ſundry Iron-maſters, in Behalf of themſelves and others concerned in the making of Iron in Great Britain; and alſo the Petition of ſeveral Merchants, Iron-maſters and Ironmongers in the City of Briſtol were referred.

And the ſaid Report was read, and is as followeth, viz.

Reſolved, That it is the Opinion of this Committee, that the making of Bar-Iron in Great Britain is greatly decreaſed.

That it is the Opinion of this Committee, that the Manufactures from Bar Iron in Great Britain are greatly decreaſed.

Reſolved, Thar it is the Opinion of this Committee, that the making and manufacturing of Bar Iron in the Plantations, is one great Cauſe of the ſaid Decreaſe.

That it is the Opinion of this Committee, that no Slitting Mills, or Steel Furnaces, be erected or worked in the Plantations.

That it is the Opinion of this Committee, that the Forges, Bloomeries and other Works for the making of Bar Iron in the Plantations, be reſtrained.

And That it is the Opinion of this Committee, that no Addition of Hearths or Wheels be made to thoſe Forges, Bloomeries, or other Works for the making of Bar Iron, already in Uſe in the Plantations.

LONDON, May 1. They write from the Hague, that the Marquis de St. Gilles, Ambaſſador from Spain, continues to have frequent Conferences with the Deputies of their High Mightineſſes, the principal Intent of which, on the Part of the Marquis, ſeems to be to excite Jealouſies and Miſunderſtandings between the Court of Great Britain and the States-General: It's certain, he has not yet taken one Step towards giving the leaſt Satisfaction to their High Mightineſſes upon their many well grounded Complaints; from whence it's eaſy to conclude, that the only Means of reducing Spain to the Neceſſity of performing her Promiſes, is, for the Maritime Powers to act in all reſpects, in Concert; by this Means ſhe may poſſibly be oblig'd to enter into ſuch a Treaty of Commerce aud Navigation with the two Nations, as ſhall inſure to them a perfect Liberty of ſecurely ſailing to their reſpective Colonies and bringing from

from thence the Produce thereof, without being liab the Inſults and Cruelties of the Spaniſh Guarda Coſtas. prevent ſo ſtrict and neceſſary an Union between Powers, the Spaniſh Ambaſſador gives their High M neſſes the beſt Words in the World, and endeavo make them believe that the King his Maſter is ready punctually to execute every thing that he has promis'd; but from a long Experience their High Mightineſſes well know how far the Promiſes of the Court of Spain are to be depended on, which are made when ſhe is under Difficulties: They ſeem to be very much like the Vows made by Sailors in Danger, which when over, they neither remember Saint nor Vow. Their High Mightineſſes are ſaid to act in this Affair with great Candour; they promiſe nothing to the Court of Great Britain, and inſiſt upon an ample Satisfaction from the Court of Spain for the Injuries done the two Nations.

That his moſt Chriſtian Majeſty has cauſed a Declaration to be made to the States General, that he readily offered his impartial Mediation to accommodate the Diſputes ariſen on Account of the Captures made by the Spaniards, upon the Engliſh and Dutch Shipping; to prevent a Rupture, when the greateſt Part of Europe deſires Peace. This Declaration is ſaid to have been made to Mr. Van Hoey by M. Amelot, and repeated by the Cardinal himſelf.

From Madrid, That his Catholick Majeſty would abide by his firſt Reſolution, to releaſe upon Security ſuch Veſſels as ſhould appear to have been unjuſtly taken from the Engliſh. That with Reſpect to the other Grievances complain'd of by that Nation, the King was in daily Expectation of receiving further Light relating thereunto; but, if notwithſtanding the Aſſurances given of his Majeſty's good Intention, the Crown of England ſhould commit Hoſtilities in the Weſt Indies, the Court of Spain could not avoid to make Repriſals by all ſuch Means as are uſed by Powers at Variance; that his Majeſty ſhould look upon himſelf, as entitled to take all Advantages in the Mediterranean, and that Things being brought to ſuch an Extremity, they would not eaſily be appeas'd. Military Preparations are carrying on throughout the Kiugdom of Spain with great Vigour, for what Purpoſe is left to the Reader to judge.

The Humble ADDRESS *of the Right Honourable the Lords Spiritual and Temporal in Parliament Aſſembled, Preſented to His* MAJESTY *on* Thurſday *the 4th Day of* May, 1738.

Moſt Gracious Sovereign,

WE Your Majeſty's moſt dutiful and loyal Subjects, the Lords Spiritual and Temporal in Parliament aſſembled, having taken into our ſerious Conſideration the many unjuſt Violences and Depredations committed by the *Spaniards* upon the Perſons, Ships, and Effects of divers of Your Majeſty's Subjects in *America*, have come to the following Reſolutions, which we beg Leave in the humbleſt Manner to lay before Your Majeſty, for Your Royal Conſideration, *viz.*

I. Reſolved, That the Subjects of the Crown of *Great Britain* have a clear and undoubted Right to navigate in the *American* Seas, to and from any Part of His Majeſty's Dominions; and for carrying on ſuch Trade and Commerce as they are juſtly intitled unto in *America*; and alſo to carry all Sorts of Goods and Merchandizes, or Effects, from one Part of His Majeſty's Dominions to any other Part thereof; and that no Goods, being ſo carried, are by any Treaty ſubſiſting between the Crowns of *Great Britain* and *Spain*, to be deemed or taken as contraband or prohibited Goods; and that the ſearching of ſuch Ships on the open Seas, under Pretence of their carrying contraband or prohibited Goods, is a Violation and Infraction of the Treaties ſubſiſting between the Two Crowns.

II. Reſolved, That it appears to this Houſe, that as well before, as ſince the Execution of the Treaty of *Seville*, on the Part of *Great Britain*, divers Ships and Veſſels, with their Cargoes, belonging to *Britiſh* Subjects, have been violently ſeized and confiſcated by the *Spaniards*, upon Pretences altogether unjuſt and groundleſs; and that many of the Sailors on Board ſuch Ships have been injuriouſly and barbarouſly impriſoned and ill-treated; and that thereby the Liberty of Navigation and Commerce belonging to His Majeſty's Subjects, by the Law of Nations, and by virtue of the Treaties ſubſiſting between the Crowns of *Great Britain* and *Spain*, hath been unwarrantably infringed and interrupted, to the great Loſs and Damage of our Merchants, and in direct Violation of the ſaid Treaties.

III. Reſolved, That it appears to this Houſe, that frequent Applications have been made, on the Part of his Majeſty, to the Court of *Spain*, in a manner the moſt agreeable to Treaties, and to the Peace and Friendſhip ſubſiſting between the Two Crowns, for redreſſing the notorious Abuſes and Grievances before mentioned, and preventing the like for the future, and for obtaining adequate Satisfaction, to His injured Subjects; which, in the Event, have proved intirely fruitleſs and of no Effect.

We think it our Duty, on this important Occaſion, humbly to repreſent to Your Majeſty, That we are moſt ſenſibly affected with the many and grievous Injuries and Loſſes ſuſtained by Your Majeſty's Trading Subjects, by Means of theſe unwarrantable Depredations and Seizures; and to give Your Majeſty the ſtrongeſt and moſt ſincere Aſſurances, That in caſe Your Friendly and Powerful Inſtances for procuring Reſtitution and Reparation to Your injured Subjects, for the future Security of their Trade and Navigation, ſhall fail of having their due Effect and Influence on the Court of *Spain*, and ſhall not be able to obtain that real Satisfaction and Security, which Your Majeſty may in Juſtice expect; we will zealouſly and cheerfully concur in all ſuch Meaſures as ſhall become neceſſary for the Support of Your Majeſty's Honour, the Preſervation of Our Navigation and Commerce, and the common Good of theſe Kingdoms.

His MAJESTY's moſt Gracious ANSWER.

MY LORDS,

I Am ſenſibly touched with the many Hardſhips and Injuries ſuſtained by My Trading Subjects in America *from the Cruelties and unjuſt Depredations of the* Spaniards. *You may be aſſured of My Care to procure Satisfaction and Reparation for the Loſſes they have already ſuffered, and Security for the Freedom of Navigation for the future; and to maintain to My People the full Enjoyment of all the Rights to which they are intitled by Treaty and the Law of Nations.*

I doubt not but I ſhall have your Concurrence for the Support of ſuch Meaſures as may be neceſſary for that Purpoſe.

PHILADELPHIA, July 27.

We have the Pleaſure of acquainting the World, that the famous Chineſe or Tartarian Plant, called *Gin ſeng*, is now diſcovered in this Province, near Saſquehannah: From whence ſeveral whole Plants with a Quantity of the Root, have been lately ſent to Town, and it appears to agree moſt exactly with the Deſcription given of it in Chambers's Dictionary, and Pere du Halde's Account of China. The Virtues aſcrib'd to this Plant are wonderful.
